Assignment 10

1. For the first problem, I used the code AS10_p1.py (Credited to Sandy Wilson) to obtain the following calculations. The file blogdata.txt was used as input

44.0

45.5

52.6

55.2

49.35

50.0

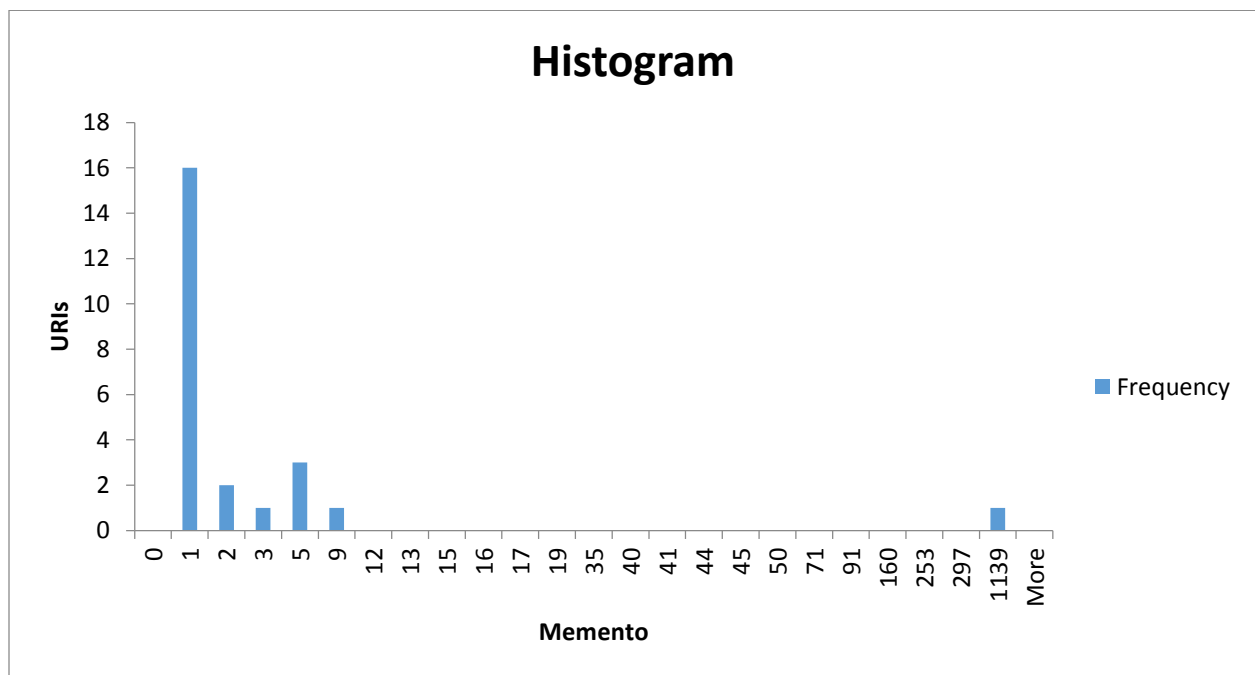

54.0

44.2

53.9

45.9

Extra Credit- I reprocessed the data found obtained in Assignment 2, and obtained the following histogram. This can be compared to the histogram in the assignment 2 report.
